#### 4. Log No. Summary

This chapter summarises all software issues that have been addressed by this fix.

For issues raised by users, Bentley Technical Support Group (TSG) Service Request Numbers are cross referenced where applicable.

<i>Details</i>	<i>Internal Reference</i>	<i>TSG Service Request</i>
Defect photo processing problem	Task 652105	

#### 5. Enhancement Details

This patch includes the fix for defect before photograph processing problem. eB's photo upload file will be created in CSV format in the directory MAI\_INSP\_DIRECTORY for each defect that gets processed through the inspection loader. This file should be converted in xlsx to upload into eB.

Two product options have been introduced through this fix.

**Product Option DEFPHOTFSM** : If set to N files will be loaded as one document per file if set to Y all files will be loaded under single document, max 20 files.

**Product Option DEFPHOTLM** : Value in this product option will be used as prefix for the document title.
