<b>How To Test</b>	Recommend full regression test
<b>Rollback Strategy</b>	Initially implement on a test environment

## List of Amended Files

Filename	Version
mai_inspection_api.pkw	3.31

## Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Exor Support
- Issues raised internally by Exor

### Issues

Internal Task ID	Issue	Support Log(s)
0112310	Fixed a bug that caused an "ORA-20000: HIG-0067: Record not found: nm_inv_types (ITY_PK) nit_inv_type => XX" error when loading an inspection file containing 2 character asset type codes and 4 character asset codes are being used in Asset Manager.
