

Maintenance Manager

Release Notes v4.6.0.0 Fix 4

Introduction

This document defines the changes made to the Maintenance Manager product for fix release v4.6.0.0 Fix 4 and is specifically targeted at end users.

After reading through this document, should you have any further training or consultancy requirements then please contact your **exor** account manager.

Fix Details

Baseline Release	4.6.0.0
Fix Description	Changes to the Contractor form to go with MAI 4600 fix2.
Prerequisites	MAI 4600 Fix 1 must be applied before applying this fix. This fix can be applied independently of MAI 4600 Fix 2 but if MAI 4600 Fix 2 is applied this fix must also be applied.
Implementation Instructions	<p>Unzip mai_4600_fix4.zip to a staging folder.</p> <p>Go to the relevant exor\bin directory on the Oracle Weblogic Server and rename the following files:- mai3881.fmx to mai3881_old.fmx</p> <p>Then copy in the new versions of the files from the staging folder.</p> <p>Log onto SQL*PLUS as the Highways Owner with the staging folder as the working directory. At the prompt type "START mai_4600_fix4.sql" and press return.</p> <p>Exit SQL*PLUS.</p>
Limitations	None known
Configuration Information	None
How To Test	Recommend full regression test
Rollback Strategy	Initially implement on a test environment

List of Amended Files

Filename	Version
log_mai_4600_fix4.sql	3.0
mai3881.fmx	5.2
org_units_ai_contractor.trg	3.0
mai_4600_fix4.sql	3.0

Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Exor Support
- Issues raised internally by Exor

Issues

Internal Task ID	Issue	Support Log(s)
0112298	1, When contract security (Product Option CONSECMODE) is set to User ("U") the currently connected user will automatically be added to any new Contractor. 2, Change to the Contractors form (MAI3881) to restrict the users and roles that can be entered in the Contract Security tab. Only users with the same or lower admin unit as the logged in user and only roles that have been granted to the logged in user are allowed.
